Contents

Volume 20, Number 1, January 1993

Plant distributions: from willows to weeds

Åse Myklestad and H. J. B. Birks: A numerical analysis of the distribution patterns of *Salix* L. species in Europe 1

James Perrins, Alastair Fitter and Mark Williamson: Population biology and rates of invasion of three introduced *Impatiens* species in the British Isles 33

David J. Beerling: The impact of temperature on the northern distribution limits of the introduced species *Fallopia japonica* and *Impatiens glandulifera* in north-west Europe 45

B. M. Fangan and I. Nordal: A comparative analysis of morphology, chloroplast-DNA and distribution within the genus *Crinum* (Amaryllidaceae) 55

Sara L. Webb, Marian G. Glenn, Edward R. Cook, Wendy S. Wagner and Roy D. Thetford: Range edge red spruce in New Jersey, U.S.A.: bog versus upland population structure and climate responses 63

Peter Haase: Genetic variation, gene flow, and the 'founder effect' in pioneer populations of *Nothofagus menziesii* (Fagaceae), South Island, New Zealand 79

J. K. Scott and F. D. Panetta: Predicting the Australian weed status of southern African plants 87

Ecology and animal ranges: two case studies

G. Wardell-Johnson and J. D. Roberts: Biogeographic barriers in a subdued landscape: the distribution of the *Geocrinia rosea* (Anura: Myobatrachidae) complex in south-western Australia 95

Karel Spitzer, Vojtech Novotny, Martin Tonner and Jan Leps: Habitat preferences, distribution and seasonality of the butterflies (Lepidoptera, Papilionoidea) in a montane tropical rain forest, Vietnam 111

Book reviews 124

Volume 20, Number 2, March 1993

Nadja M. Tchebakova, Robert A. Monserud, Rik Leemans and Sergei Golovanov: Special Paper: A global vegetation model based on the climatological approach of Budyko 129

Diversity and richness gradients

J. A. Crame: Bipolar molluscs and their evolutionary implications 145

Brian Huntley: Species-richness in north-temperate zone forests 163

Eileen M. O'Brien: Climatic gradients in woody plant species richness: towards an explanation based on an analysis of southern Africa's woody flora 181

C. Mark Cowell: Environmental gradients in secondary forests of the Georgia Piedmont, U.S.A. 199

Ingvar Backéus: Ecotone *versus* ecocline: vegetation zonation and dynamics around a small reservoir in Tanzania 209

Victor M. Ponce and Catia N. da Cunha: Vegetated earthmounds in tropical savannas of Central Brazil: a synthesis. With special reference to the Pantanal do Mato Grosso 219

Anders N. Nilsson, Roger B. Pettersson and Geoffrey Lemdahl: Macroptery in altitudinal specialists *versus* brachyptery in generalists—a paradox of alpine Scandinavian carabid beetles (Coleoptera: Carabidae) 227

José L. Tellería and Tomás Santos: Distributional patterns of insectivorous passerines in the Iberian Forests: does abundance decrease near the border? 235

Correspondence

Jacques Blondel: Niche expansion in an insular bird community: reply to J. L. Martin 241

Jean Louis Martin: A response to J. Blondel 243

Book reviews 245

Volume 20, Number 3, May 1993

Changing concepts in the biogeography of Pteridophytes

David S. Barrington and Masahiro Kato: Introduction: Changing concepts in the biogeography of pteridophytes: the biogeography symposium at the 1990 Progress in Pteridology Conference—Ann Arbor, Michigan 253

Alan R. Smith: Phytogeographic principles and their use in understanding fern relationships 255

Masahiro Kato: Biogeography of ferns: dispersal and vicariance 265

David S. Barrington: Ecological and historical factors in fern biogeography 275

Jan Kornas: The significance of historical factors and ecological preference in the distribution of African pteridophytes 281

K. U. Kramer: Distribution patterns in major pteridophyte taxa relative to those of angiosperms 287

Jan Kornas: The significance of historical factors and ecological preference in the distribution of African pteridophytes 281

K. U. Kramer: Distribution patterns in major pteridophyte taxa relative to those of angiosperms 287

David R. Given: Changing aspects of endemism and endangerment in pteridophyta 293

Brendan G. Mackey: Special Paper: A spatial analysis of the environmental relations of rainforest structural types 303

Book reviews 337

Short notice 344

Volume 20, Number 4, July 1993

M. E. Meadows and H. P. Linder: Special Paper: A palaeoecological perspective on the origin of Afromontane grasslands 345

Changing patterns in time and space

M. S. Hopkins, J. Ash, A. W. Graham, J. Head and R. K. Hewett: Charcoal evidence of the spatial extent of the *Eucalyptus* woodland expansions and rainforest contractions in North Queensland during the late Pleistocene 357

D. M. J. S. Bowman and W. J. Panton: Decline of *Callitris intratropica* R. T. Baker & H. G. Smith in the Northern Territory: implications for pre- and post-European colonization fire regimes 373

Michael B. Coughenour and James E. Ellis: Landscape and climatic control of woody vegetation in a dry tropical ecosystem: Turkana District, Kenya 383

Wilhelm Schüle: Mammals, vegetation and the initial human settlement of the Mediterranean islands: a palaeoecological approach 399

Petr Pysek and Karel Prach: Plant invasions and the role of riparian habitats: a comparison of four species alien to central Europe 413

Aspects of theory

Sydney Anderson and Leslie F. Marcus: Effect of quadrat size on measurements of species density 421

S. E. McNeill and P. G. Fairweather: Single large or several small marine reserves? An experimental approach with seagrass fauna 429

I. W. B. Thornton, R. A. Zann and S. van Balen: Colonization of Rakata (Krakatau Is.) by non-migrant land birds from 1883 to 1992 and implications for the value of island equilibrium theory 441

Mark B. Bush and Robert J. Whittaker: Non-equilibration in island theory of Krakatau 453

Book reviews 459

Book review policy 461

Volume 20, Number 5, September 1993

Colmore S. Christian: Special Paper: The challenge of parrot conservation in St Vincent and the Grenadines 463

Landscape patterns

G. Pickup and D.M. Stafford Smith: Problems, prospects and procedures for assessing the sustainability of pastoral land management in arid Australia 471

Conrad J. Bahre and M.L. Shelton: Historic vegetation change, mesquite increases, and climate in southeastern Arizona 489

D. I. Jarvis and Liu Helin: Vegetation patterns in the *Pinus yunnanensis*-sclerophyllous broadleaved forests, Mianning County, Sichuan Province, China 505

Group biogeographies

Henrik Enghoff: Phylogenetic biogeography of a Holarctic group: the julidan millipedes. Cladistic subordinateness as an indicator of dispersal 525

Jörundur Svavarsson, Jarl-Ove Strömberg and Torleiv Brattegard: The deep-sea asellote (Isopoda, Crustacea) fauna of the Northern Seas: species composition, distributional patterns and origin 537

Johan Andersen: Beetle remains as indicators of the climate in the Quaternary 557

Meri Oakwood, Enrique Jurado, Michelle Leishman and Mark Westoby: Geographic ranges of plant species in relation to dispersal morphology, growth form and diaspore weight 563

Book reviews 573

Volume 20, Number 6, November 1993

Daniel Golani: Special Paper: The sandy shore of the Red Sea—launching pad for Lessepsian (Suez Canal) migrant fish colonizers of the eastern Mediterranean 579

Southern hemisphere Holocene

J. G. Luly: Holocene palaeoenvironments near Lake Tyrell, semi-arid northwestern Victoria, Australia 587

P. L. Osborne, G. S. Humphreys and N. V. C. Polunin: Sediment deposition and late Holocene change in a tropical lowland basin: Waigani Lake, Papua New Guinea 599

Climate, fire and endemism

James M. Lenihan and Ronald P. Neilson: A rule-based vegetation formation model for Canada 615

Elgene O. Box, David W. Crumpacker and E. Dennis Hardin: A climatic model for location of plant species in Florida, U.S.A. 629

Steven L. Stephenson, Indira Kalyanasundaram and T. N. Lakhanpal: A comparative biogeographical study of myxomycetes in the mid-Appalachians of eastern North America and two regions of India 645

U. Dhar and S. S. Samant: Endemic plant diversity in the Indian Himalaya I. Ranunculaceae and Paeoniaceae 659

Bruce R. Burns: Fire-induced dynamics of *Araucaria araucana-Nothofagus antarctica* forest in the southern Andes 669

K. J. M. Dickinson, A. F. Mark and B. Dawkins: Ecology of lianoid/epiphytic communities in coastal podocarp rain forest, Haast Ecological District, New Zealand 687

Erratum 706
